All members of the Board of Appeals shall be residents of separate congressional townships at the time of their appointments. One of the members so appointed shall be named Chairman at the time of his appointment, and in case of vacancy, the appointing power shall designate a Chairman. The appointing authority shall have the power to remove any member of the Board for cause, after public hearing. Vacancies shall be filled by the appointing authority for the unexpired term of any member whose place had become vacant.

Section 10.2 Meetings of Board. All meetings of the Board of Appeals shall be held at the call of the Chairman and at such times and places within the County as such Board may determine. Such Chairman, or in his absence, the acting Chairman, may administer oaths and compel attendance of witnesses. All meetings of such Board shall be open to the public. Such Board shall keep minutes of its proceedings, showing the vote of each member upon every question, or if absent or failing to vote, indicating such fact, and shall also keep records of its explanations and other official actions. All members shall disclose any possible conflict prior to their vote upon any particular rule, regulation or amendment or appeal, to avoid the appearance of impropriety on issues in which they or members of their immediate family may have an interest. [Effective since 17 Oct 01] Every rule, regulation, every amendment or repeal thereof, and every order, requirement, decision or determination of the Board shall immediately be filed in the office of the Board and shall be a public record. In the performance of its duties, the Board of Appeals may incur such expenditures as shall be authorized by the County Board.

Section 10.3 Appeals to the Board. The Board of Appeals shall hear and decide appeals from and review any order, requirement, decision or determination made by the Administrative Officer in the enforcement of this Resolution. Such appeal shall be taken within a period of not more than three (3) months and in the manner prescribed by the rules of the Board, by filing with the Administrative Officer and with the Board of Appeals

a notice of appeal specifying the grounds thereof. Filing a notice of appeal shall be accompanied by a fee, in accordance with the fee schedule adopted by the county board, to cover the cost of processing the appeal; and under no condition shall said fee, or any part thereof, be returned for failure of said appeal to be approved. [Effective since 16 Oct 02] When notice of appeals is filed, the Administrative Officer shall transmit all of the records regarding the appeal to the Board. The Board shall have full power to adopt all rules for the transaction of its business, the regulations of procedure before it, and the carrying out of the powers granted to it by the provisions herein set forth and not inconsistent therewith.

Section 10.4 Powers of the Board shall be:

10.4.01 To hear and decide appeals where it is alleged there is error of law in any order, requirement, decision or determination made by an Administrative Officer in the enforcement of this Resolution.

10.4.02 Upon application by a property owner to permit exceptions to the terms of the Zoning Resolution as follows:

(a) To permit the extension of a district where the boundary line of a district divides a lot held in a single ownership at the time of the passage of this Resolution.

(b) To permit, where the boundary line of a district divides a tract of more than ten (10) acres under single ownership, adjustment to such a line to conform with the topography of the ground where such a tract is being subdivided, provided such a variation does not extend for a distance of more than five hundred (500) feet and does not come closer than three hundred (300) feet to any boundary of the tract.

(c) To interpret the provisions of this Resolution in such a way as to carry out the intent and purpose of the plan, as shown upon the maps fixing the several districts accompanying and made a part of this Resolution where the street layout actually on the ground varies from the street layout as shown on the map aforesaid.

(d) To permit the reconstruction of a non-conforming building or structure which has been damaged by explosion, fire, Act of God, or public enemy, to the extent of more than seventy (70) percent of its fair market value, where the Board finds some compelling public necessity requiring a continuance of the non-conforming use, and the primary purpose of continuing the non-conforming use is not to continue a monopoly. [Effective since 21 Nov 01]

(e) To permit a variation in the yard requirements of any district where there are practical difficulties or unnecessary hardships in the carrying out of these provisions due to an irregular shape of the lot, topographic or other conditions, provided such variation will not seriously affect any adjoining property or the general welfare.

(f) To permit the erection and use of a building, structure, or the use of premises for public utility purposes such as radio, telephone or television facilities. [Effective since 21 Nov 01]

10.4.03 To authorize upon application, whenever a property owner can show that a strict application of the terms of this Resolution relating to the use, construction or alteration of buildings or structures or the use of land will impose upon him practical difficulties or particular hardship, such variations of the strict application of the terms of this Resolution as are in harmony with its general purpose and intent, but only when the Board is satisfied that a granting of such variation will not merely serve as a convenience to the applicant, but will alleviate some demonstrable and unusual hardship or difficulty so great as to warrant a variation from the comprehensive plan as established by this Resolution, and at the same time the surrounding property will be properly protected. Application for a proposed variation shall be accompanied by a fee, in accordance with the fee schedule adopted by

the county board, to cover the cost of processing the application; and under no condition shall said fee, or any part thereof, be returned for failure of said variation to be approved. [Effective since 16 Oct 02]

10.4.04 To conduct hearings and make recommendations, to the County Board, upon applications for conditional use permits specifically listed in the district regulations of this Resolution. Before authorizing the issuance of such a conditional use permit, the County Board shall schedule, and the Board of Appeals shall conduct, a public hearing on such application for conditional use permit, giving not less than fifteen (15) days nor more than thirty (30) days public notice, as provided by law, of the time and place of such hearing. Before authorizing the issuance of such a conditional use permit, the County Board may impose, after public hearing and recommendation by the Zoning Board of Appeals, such conditions as will, in the County Board's judgment, insure that: [Effective since 12 Nov 75]

(a) The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare.

(b) The conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, or substantially diminish and impair property values within the neighborhood.

(c) The establishment of the conditional use will not impede the normal and orderly development of surrounding property for uses permitted in the district.

(d) Adequate utilities, access roads, drainage, and/or other necessary facilities will be provided.

(e) Adequate measures will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.

(f) The conditional use shall in all other respects conform to the applicable regulations of the district in which it is located.

(g) Before land is used or a building erected or used for any of the above purposes, a preliminary plan and a final plan, unless a final plan is waived by the County Board, including written material and drawings, shall be approved by the County Board. The County Board shall consider, after public hearing and recommendation by the Board of Appeals, and approve or reject the preliminary plan with or without modifications. A final plan will be approved when in accordance with an approved preliminary plan. The County Board may, after approving a preliminary plan, authorize the Administrative Officer to approve a final plan if it complies with the approved preliminary plan and any conditions attached thereto by the County Board. From time to time the proponents may make minor changes in the approved final plan so long as such changes have been approved by the Administrative Officer or, upon denial of approval by said Administrative Officer, with the approval of the Zoning Board of Appeals. What constitutes a "minor" change will be determined in the sole discretion of the Administrative Officer. No building or occupancy permit shall be issued for any building or use that is not in accordance with an approved final plan. The preliminary plan shall: [Effective since 12 Nov 75]

(1) Be drawn to scale;

(2) Show boundaries of property to be developed;

- (3) Show the proposed size, location, use and arrangement of buildings, parking areas with proposed arrangement of stalls, and number of cars. Entrance and exit driveways and their relationship to existing and proposed streets;
- (4) Indicate location, type, use and size of structures on adjacent properties within 400 feet of the proposed development;
- (5) Provide for the dedication of any rights-of-way for widening, extension, or connection of major streets as shown on the official plan; and
- (6) Indicate the stages, if any, which will be followed in construction.

The final plan shall be the standard plot plan required to obtain a building permit except that it shall show the use or types of uses to be accommodated in each building or portion thereof.

(h) Conditional use permit applications for extraction of mineral resources including coal, sand and gravel, or other mining operations, shall be accompanied by the same information and plans as required by the State of Illinois to obtain a mining or extraction permit, specifically, as required under the Surface-Mined Land Conservation and Reclamation Act – 1971, as amended. [Effective since 12 Nov 75]

Application for a proposed conditional (special) use permit shall be accompanied by a fee, in accordance with the fee schedule adopted by the county board, to cover the cost of processing the application, and under no condition shall said fee, or any part thereof, be returned for failure of said conditional (special) use permit to be approved. [Effective since 16 Oct 02]

Section 10.5 The concurring vote of three (3) members of the Board shall be necessary to reverse any order, requirement, decision or determination of the Administrative Officer or to decide in favor of the applicant any matter upon which it is required to pass under this Resolution. Every variation granted or denied by the Board shall be accompanied by a written finding of fact, based on testimony and evidence and specifying the reason for granting or denying the variation. [Effective since 12 Nov 75] [Effective since 29 Sept 10]

Section 10.6 An appeal stays all proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the Board of Appeals, after the notice of appeal has been filed with him, that, by reasons of fact stated in the certificate, a stay would, in his opinion, cause imminent peril to life or property, in which cases proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board of Appeals or by a court of record on application of notice to the officer from whom the appeal is taken and on due cause shown.

The Board of Appeals shall fix a reasonable time for the hearing of the appeal and give notice thereof to the parties and decide the same within a reasonable time. Upon the hearing, any party may appear in person or by agent, or by attorney. The Board of Appeals may reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination as in its opinion ought to be made in the premises, and to that end shall have all the powers of the officer from whom the appeal is taken.

Any person or persons jointly or severally aggrieved by any decision of the Board of Appeals or any officer, department, board or bureau of the County, shall have the right of petition and appeal as set forth in an act in relation to county zoning, 55 ILCS 5/5-12012, Illinois Compiled Statutes.

All decisions and findings of the Board of Appeals, on appeals or upon application for a variation after a hearing, shall, in all instances, be final administrative determinations and shall be subject to review by Court as by law is provided at 735 ILCS 5/3-101 et seq. If no juridical review is sought as provided by law during

the prescribed time, the decision and findings of the Board of Appeals will stand, and will not be reversed by any circumstances, other than by Court Order. [Effective since 17 Oct 01]

ARTICLE 11 CONSTRUCTION AND OCCUPANCY PERMITS

Section 11.1 No building or structure shall hereafter be erected reconstructed or structurally altered nor shall any work be started upon same until a construction permit for same has been issued by the Administrative Officer, which permit shall state that the proposed building or structure complies with all the provisions of this Resolution. [Effective since 21 Nov 01]

Improvements authorized by construction permit must be made in accordance with the drawings on the application for said permit. Location of buildings or structures must be staked out on property as shown on application. No changes in location may be made without first contacting the Administrative Officer. No substantial changes in location may be made without the written approval of the Administrative Officer. [Effective since 17 Oct 01]

Every certificate of occupancy shall state that the new occupancy complies with all provisions of this Resolution.

Section 11.3 [Effective since 15 Dec 93] The fee for a Construction Permit for the construction, reconstruction or structural alteration of a building or structure, except normal farm buildings or structures, shall be in accordance with the following schedule based upon estimated cost of construction, including labor and materials: [Effective since 21 Nov 01] See attached Knox County Unified Development Fee Schedule. [Effective since 16 Oct 02]

11.3.01 Application for a Certificate of Occupancy or Construction Permit for the construction, reconstruction or structural alteration of a building or structure, and other applicable property improvements or changes, except typical farm buildings and structures, shall be accompanied by a fee, in accordance with the fee schedule adopted by the county board; and under no condition shall said fee, or any part thereof, be returned for failure of said certificate or permit to be approved. [Effective since 16 Oct 02]

11.3.02 Except as provided in subsection 11.3.03 of this section, when occupancy precedes issuance of the required certificate, or when work is commenced or proceeded with prior to obtaining the required permits, the established fees shall be doubled. The payment of such doubled fee shall not relieve any person from fully complying with the requirements of this Resolution, nor from the penalties prescribed herein. [Effective since 16 Oct 02]

11.3.03 In cases of emergency, resulting from damage from explosion, fire, Act of God, other destructive acts of nature, or public enemy, a contractor or owner may proceed with the repair work and file the application for permit within 24 hours, Saturdays, Sundays and holidays excepted. Any application for a construction permit shall be accompanied by a set of drawings and specifications showing the details of the building or structure. A record of applications, plats, plans and specifications shall be kept in the office of the Administrative Officer. [Effective since 21 Nov 01]

The information contained within the application for permit must be correct and issuance of a permit allows to be done only such work as is applied for, and any misinformation or deviation will void said permit. Any permit issued on reliance of misinformation related to the exact location of all existing buildings and structures, dimensions, and distances to property or tract lines, which is supplied by, or known to applicant, at the time of application, will likewise render the permit void.

Any permit, zoning certificate, or certificate of occupancy issued in conflict with the provisions of this Resolution shall be considered null and void. [Effective since 17 Oct 01]
