#### KNOX COUNTY

#### MISC. CONSTRUCTION PERMIT APPLICATION

Please fully complete all applicable parts of the application form.

Building permit fees are based on per square footage. Please see the Unified Development Fee Schedule below. Fees will be doubled if any construction has been started before obtaining a permit from the Knox County Zoning Office.

The structure being built needs to be properly staked out, allowing dimensions, corners, and setbacks to be verified as to the Knox County Resolution. Please check with the Zoning Department to clarify what setbacks are required in your zoning district.

A site map and construction plan with materials being used <u>MUST</u> be attached with this application. Two (2) sets of plans are required.

If the land has <u>NOT</u> been disturbed, (check land use layer), the applicant will need to file an ECO-Cat with the IDNR (Illinois Dept. of Natural Resources) Consultation Fee for the ECO-Cat is \$125. A copy of the consultation will need to be brought into the Zoning Office before a permit can be issued.

Anyone completing plumbing must contact the State Plumbing Inspector Brian McGrath at 309-276-6195.

If you have any questions on completing the application, please call:

Knox County Zoning Office at (309) 345-3840.

#### KNOX COUNTY UNIFIED DEVELOPMENT FEE SCHEDULE

Please make the check payable to **Knox County Zoning Department** 

# CONSTRUCTION PERMIT FEES

# SAMPLE SITE PLAN

Here is an example of a site plan that is required with this application. Please show the setbacks you will have from all the appropriate property lines as outlined in the Knox County Zoning Resolution.

### SITE PLAN

Prepare a **SITEMAP** below, accurately depicting the size, shape, and dimensions of the subject property, the location, size, and dimensions of any and all existing and proposed buildings, structures, fences, signs, driveways, off-street parking areas, and other features. Identify and label these features.

Show accurate distance measurements from all existing and proposed buildings, structures, fences, signs, driveways, off-street parking areas, and other features to all property boundaries. Identify and label utility easements of record. Identify and label water well and septic system locations, if existing or proposed.

**NORTH** 

WEST	EAST

**SOUTH** 

#### **NOTICE TO APPLICANT:**

Only after a Knox County Zoning Department representative approves this application, will you be issued the necessary construction permit. After you receive your permit, you must display it where it can be easily seen, and then you may begin the construction activities as approved therein. Additional conditions may apply. Completing this application and paying the required fee does not constitute permission to begin construction activities. Construction must not start until after an approved Knox County construction permit is issued.

#### **APPLICANTS DECLARATORY STATEMENT:**

By completing and signing this application, I declare that I have thoroughly read and clearly understand all portions of this Application and that the information provided herein is complete and correct, and agree, in consideration of the approval and issuance of a Knox County construction permit, to perform or allow to be performed only such work as is herein applied for, and that said property and its existing and proposed building, buildings, structure, structures, or any other improvements will be used or allowed to be used for such purposes as are described above, or other uses permitted by the Knox County Zoning Resolution; I understand that by performing any other work, or by using the subject property for other purposes, I will surrender all privileges granted by the construction permit issued me; and, I understand that the application fee paid is not refundable.

Also, I hereby declare that approved construction activities will commence within six (6) months from the date of approval of a Knox County construction permit and that all approved work will be completed within twelve (12) months from said approval date. I understand that once issued a Knox County construction permit, it expires one (1) year from the date issued.

I verify that I have read the Declaratory Statement and also the attached Illinois General Assembly Bill Status for SB 2820 State Residential Building Code:

Owners Printed Name: _	
Owners Signed Name: _	_Date signed://

#### **REMINDERS:**

- 1. Obtain and keep a copy of this application for your records.
- 2. Post your approved construction permit at the work location, for reference by contractors, workers, and County and township officials.

AN ACT in relation to housing.

# Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Short title. This Act may be cited as the Illinois Residential Building Code Act.

Section 5. Purpose. The purpose of this Act is to provide minimum requirements for safety and to safeguard property and the public welfare by regulating and controlling the design, construction, installation, and quality of materials of new residential construction as regulated by this Act.

Section 10. Definitions. In this Act: "International Residential Code" means the International Residential Code for One and Two Family Dwellings published by the International Code Council, as now or hereafter amended by the Council.

"New residential construction" means any original construction of a single-family home or a dwelling containing 2 or fewer apartments, condominiums, or town houses. "Residential building code" means an ordinance, resolution, law, housing or building code, or zoning ordinance that establishes, for residential building contractors, construction-related activities applicable to single-family or 2-family residential structures.

"Residential building contractor" means any individual, corporation, or partnership that constructs a fixed building or structure for sale or use by another as a residence or that, for a price, commission, fee, wage, or other compensation, undertakes or offers to undertake the construction of any building or structure to be used by another as a residence, if the individual, corporation, or partnership reasonably expects to earn a financial profit from that activity.

Section 15. Adoption of building code. A contract to build a home (1) in any municipality in this State that does not have a residential building code in effect or (2) in any portion of a county that is not located within a municipality and does not have a residential building code in effect must adopt as part of the construction contract the applicability of a residential building code that is agreed to by the home builder and the home purchaser as provided in this Section. The home builder and the home purchaser may agree to adopt any municipal residential building code or county residential building code that is in effect on the first day of construction in any county or municipality that is within 100 miles of the location of the new home. If the home builder and the home purchaser fail to agree to a residential building code or if no residential building code is stated in the contract, the plumbing code promulgated by the Illinois Department of

Public Health under Section 35 of the Illinois Plumbing License Law, the National Electric Code as adopted by the American National Standards Institute, and the International Residential Code shall, by law, be adopted as part of the construction contract.

Section 20. Homes constructed for resale. If a builder constructs a home for resale, the builder must certify to the buyer that the builder has constructed the home in compliance with a code authorized under Section 15 and must identify that code.

Section 99. Effective date. This Act takes effect January 1, 2005.
